

YASHWANTH RAVI

Senior Product Manager • Growth & Customer Acquisition • AI Products

Bengaluru, India | +91 76193 74704 | yashwanthgangur@gmail.com
[linkedin.com/in/yashwanth-ravi](https://www.linkedin.com/in/yashwanth-ravi) • MS AI/ML, IIT Kanpur • PGDM, IIM Rohtak • B.Tech EEE

PROFESSIONAL SUMMARY

Senior Product Manager with ~7 years driving **0→1 growth, customer acquisition, and AI-powered products** across consumer (B2C) and enterprise (B2B) markets. Scaled a consumer vertical to **20M+ monthly users** and built durable subscription revenue at **>80% renewal**; currently leading a **9-product 0→1 enterprise platform across 4 countries**, including two shipped AI systems — a predictive ML pricing engine and an LLM + RAG assistant. Deep in **A/B & multivariate testing, acquisition funnels (SEM/PPC + SEO, landing pages, checkout), unit economics (CAC/LTV/CVR), and AI product management**. MS in AI/ML from IIT Kanpur. Known for turning ambiguous briefs into shipped, measurable outcomes.

CORE COMPETENCIES

- Product Strategy & Roadmap
- Paid & Organic (SEM/PPC, SEO)
- AI / LLM Product Management
- Cross-Functional Leadership
- A/B & Multivariate Testing
- Landing Pages & Checkout CRO
- Experimentation & Analytics
- Stakeholder Management
- Growth & Customer Acquisition
- Funnel & Unit Economics
- 0→1 & MVP Development
- Data-Driven Decisions

PROFESSIONAL EXPERIENCE

Senior Product Manager — SimStar (Stargems Group)

Jul 2024 – Present

Diamond & jewelry enterprise • 0→1 digital platform across Hong Kong, India, USA & Dubai • Led 2 PMs + engineering, design, QA, data & vendors

- Owned the 0→1 roadmap for a 9-product enterprise platform**, digitizing a manual four-country diamond operation and driving **~40% reduction in manual effort** across ~200 users and 8 teams.
- Shipped an AI pricing engine (predictive ML)** that removed **100% of manual pricing**, reaching **~90%+ accuracy (MAPE ~8-10%)** validated in shadow mode, pricing **~8,000+ stones/quarter** and cutting turnaround from days to seconds.
- Launched an LLM + RAG WhatsApp assistant** (generative AI with human hand-off) that lifted query **deflection from ~20% to ~50-60%** at **~92% answer correctness, ~95% hand-off recall, NPS >9** — a hybrid-intelligence workflow.
- Built simstar.co (0→1, B2B + customer-facing)** with full payments and real-time inventory sync, reaching **~50k+ monthly visitors** at **~98% payment success**.
- Integrated RapNet & marketing platforms via API**, auto-syncing **~50k+ stones** and cutting listing time by **~90%**; built offer management (~50% faster bids, 100% traceability) and an in-house pair-stone matching engine (hours → seconds, 4 locations).
- Delivered an Odoo ERP core** (Sales, Inventory, Ops, Accounts, Compliance) at **~99% inventory accuracy**, plus an API-first video dashboard (13+ media/stone, ~70% faster asset-sharing) and a shareable per-diamond Digital Passport.
- Embedded compliance by design** — Kimberley Process, Responsible Jewellery Council (RJC), and Tracr blockchain traceability.

Product Manager — Growth & Acquisition — Magicbricks (Times Internet)

Jun 2019 – Jun 2024

India's largest real-estate platform • 0→1 PG/Co-living vertical • Consumer growth, subscriptions & acquisition

- Built and scaled the PG/Co-living vertical 0→1 to 20M+ monthly users and 1.5M+ listings**, growing from ~1M to 20M+ across five stages via SEO, paid acquisition, and funnel optimization.
- Ran rigorous A/B & multivariate testing** on landing pages and checkout, lifting **checkout conversion from ~9% to ~11% (~+22%)** — an estimated **+\$1.25M/year** in incremental subscription revenue.

- **Launched a tiered subscription model** under uncertainty (lean MVP → validated willingness-to-pay → scaled 1→3+ tiers), achieving **>80% renewal** and durable recurring revenue.
- **Owned paid + organic acquisition** (Google SEM/PPC + SEO), improving message-match and Quality Score (~6→~8) to cut **CAC by ~20%** and raise ROAS.
- **Drove decisions with demand analytics** — finding ~84% of inquiries were double-occupancy and demand concentrated in Bengaluru (63%), MMR (46%), and Delhi-NCR (44%) — to focus scope and accelerate product-market fit.
- **Implemented a Salesforce One-View CRM** (registration → invoice) at **90%+ adoption and NPS >8.5**, and unified multi-channel support (Email, Ameyo IVR, WhatsApp), reducing turnaround time by **~35%**.

EDUCATION

M.S. in Artificial Intelligence & Machine Learning — [Indian Institute of Technology \(IIT\) Kanpur](#)

2024 – 2026

CGPA: 9.0 / 10

Post Graduate Diploma in Management (PGDM) — [Indian Institute of Management \(IIM\) Rohtak](#)

B.Tech, Electrical & Electronics Engineering (EEE) — [Reva University](#)

SKILLS & TOOLS

Product & Growth: Roadmapping, RICE/ICE prioritization, A/B & multivariate testing, experimentation programs, MVP development, CRO, funnel analytics, unit economics (CAC, LTV, CVR, ROAS, payback)

AI / ML: LLMs, RAG, prompt design, model evaluation (MAPE, precision/recall, golden test sets), classical ML (regression), AI product management

Analytics & Data: Mixpanel, Metabase, SQL / PostgreSQL, GCP, dashboards, cohort & funnel analysis, segmentation

Marketing: Google SEM / PPC, SEO, landing-page & checkout optimization, paid + organic acquisition, ROAS optimization

Platforms & Delivery: Odoo ERP, Salesforce CRM, Jira, Scrum/Agile & Kanban, Figma, Whimsical, API/FTP integrations, RapNet

Domain & Compliance: Marketplaces, subscriptions, diamond/jewelry, Kimberley Process, RJC, Tracr blockchain

SELECTED IMPACT HIGHLIGHTS

- **20M+** monthly users scaled on a 0→1 consumer vertical · **>80%** subscription renewal
- **~40%** manual-effort reduction across a 9-product enterprise platform in 4 countries
- **~90%+** AI pricing accuracy · **~50–60%** chatbot deflection at **NPS >9**
- **~+22%** checkout conversion lift · **~20%** CAC reduction via acquisition optimization

Select metrics are representative estimates pending final verification.
